WORKPLACE FURNITURE

A meeting room within a room. Meeting booths give the 'out of the office' buzz to any meeting or...even somewhere to work quietly alone.

With its pitched roof design, shack enhances that 'out of the office' psychology. Shack can be configured to accommodate 2,4,6,8 and so on.

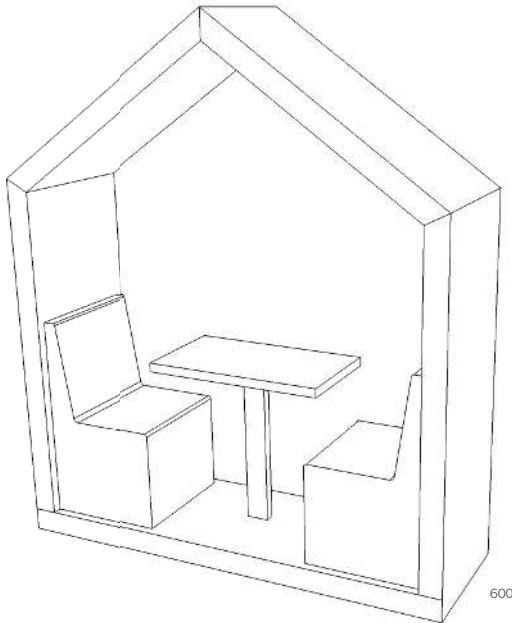

**Designer's comment:**

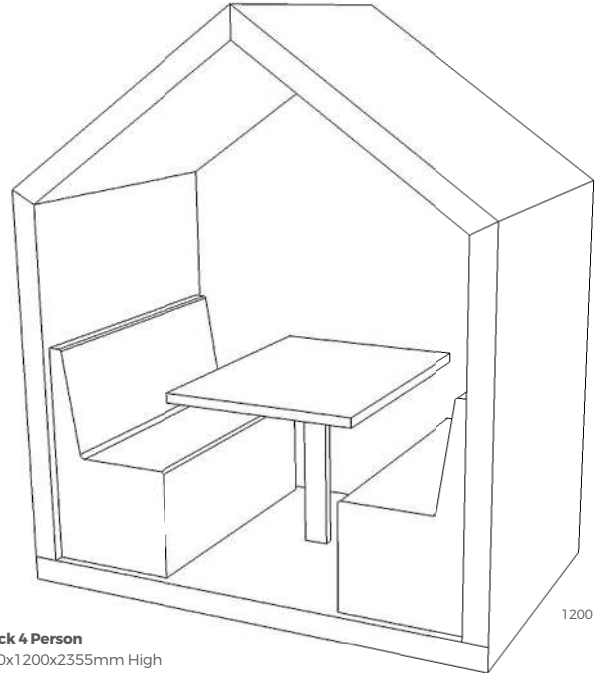

We all have that inbred 'primitive roof over the head, beat the elements' instinct. Renowned designer Paul Smith had a purpose made shed built as an office retreat. We think we should develop an all-weather version that could sit in public spaces for public use. Agree?
